

Today, millions of individuals, including many with preexisting health conditions, can obtain affordable health care coverage. Any changes to current law should preserve coverage for these individuals, extend coverage to those who remain uninsured, and lower costs and improve quality for all.

In addition, any reform measure must support a health care system that provides affordable, accessible and adequate health care coverage and preserves the coverage provided to millions through Medicare and Medicaid. The basic elements of meaningful coverage are described below.

Affordable plans ensure patients are able to access needed care in a timely manner from an experienced provider without undue financial burden. Affordable coverage includes reasonable premiums and cost sharing (such as deductibles, copays and coinsurance) and limits on out-of-pocket expenses. Adequate financial assistance must be available for low-income Americans and individuals with preexisting conditions should not be subject to increased premium costs based on their disease or health status.

All people, regardless of employment status or geographic location, should be able to gain coverage without waiting periods through adequate open and special enrollment periods.

allowed to remain on their parents' health plans until age 26 and coverage through Medicare and Medicaid should not be jeopardized through excessive cost-shifting, funding cuts, or per capita
